

Configuring Outlook Express Email Settings On Your Mac

1. Open Outlook Express
2. Go to the Edit menu --> Preferences
3. The preferences window will pop up. In the left column click E-Mail, as shown below:

4. In the E-mail window, enter the following Information:

A screenshot of the 'Account Information' dialog box in Outlook Express. The dialog box is divided into several sections: 'Account Information', 'Sending Mail', and 'Receiving Mail'. The 'Full name' field is highlighted with an orange border and contains the text 'Your Name'. The 'E-mail address' field contains 'yourlogin@labridge.com'. The 'Organization' field is empty. The 'SMTP server' field contains 'smtp.LABridge.com'. The 'Account ID' field contains 'yourlogin'. The 'POP Server' field contains 'pop.labridge.com'. There is an unchecked checkbox for 'Save password'. The 'Account name' field contains 'La Bridge Email'. At the bottom of the dialog box, there are three buttons: 'Advanced...', 'Make Default', and 'Remove Account'. At the very bottom, there are two buttons: 'Cancel' and 'OK'.

5. Click OK. Now you are set-up for sending and receiving email.
